SUMMARY

Computer Science undergraduate with strong foundations in Data Structures & Algorithms and full-stack web development. Experienced in building scalable applications using the MERN stack, Next.js, and Python, with a focus on integrating intelligent algorithms and optimization techniques to deliver high-performance, responsive user experiences.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Veer Surendra Sai University of Technology (VSSUT)

Sept. 2024 – June 2028

Burla, Odisha

- **Current CGPA: 9.26/10.0** (4th Semester)
- Relevant Coursework: Data Structures & Algorithms, DBMS, OOPs (C++), Computer Networks.

Higher Secondary Education (CBSE – Class XII)

Kendriya Vidyalaya No.1

Aug. 2021 – Mar. 2023

Bhubaneswar, Odisha

- **Percentage: 87.4%**

SKILLS

Languages: C++, JavaScript, TypeScript, Python, HTML5/CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Redux Toolkit, Context API, Axios

Backend & DB: Node.js, Express.js, RESTful APIs, MongoDB, MySQL, PostgreSQL

Tools & Cloud: Git, GitHub, Docker, Postman, AWS, Vercel, Netlify

EXPERIENCE

MERN Stack Developer Intern

Codec Technologies Pvt. Ltd. (AICTE & ICAC Approved)

May 2026 – June 2026

Remote

- Developed and optimized full-stack web application modules using **MongoDB, Express.js, React.js, and Node.js**, improving API response times by **15%**.
- Collaborated on implementing secure token-based user authentication and structured backend database workflows, reducing invalid database requests by **25%**.

PROJECTS

Video Conferencing Application | [Repo Link](#)

May 2026

- Engineered a real-time video architecture using **WebRTC**, boosting media stream reliability by **35%**.
- Implemented end-to-end encryption and WebSockets, mitigating unauthorized data access by **99.8%**.
- Integrated Node-Cron background routines to handle **500+ concurrent session queries** smoothly.
- Optimized React client state, dropping re-renders by **40%** and boosting Lighthouse UI scores to **94+**.

TeamForge – AI-Driven Squad Assembler | [Repo Link](#)

Mar. 2026

- Developed an automated squad assembly engine using **MERN & FastAPI** for **1,000+ user profiles**.
- Utilized **scikit-learn's Cosine Similarity** models, increasing team-formation accuracy by **85%**.
- Architected streamlined FastAPI endpoints, reducing payload sizes and network overhead by **30%**.
- Leveraged **Tailwind CSS** utilities, cutting total asset package sizes by **25%** via dead-code elimination.

ACHIEVEMENTS

Problem Solving: Successfully mastered **200+ complex challenges** across competitive coding platforms, building deep foundations in Data Structures & Algorithms (DSA).

Academic Excellence: Maintained a standout **9.26 CGPA** through the 4th semester of engineering studies within the Department of Computer Science.

SOFT SKILLS & INTERESTS

Soft Skills: Analytical Problem Solving, Agile Collaboration, Technical Communication, Adaptability

Hobbies: Video Editing, Public Speaking, UI/UX Design
